BLACKHEAD SUCTION INSTRUMENT XL008S REMOVEDOR PUNTOS NEGROS BLANCO

Specifications

<p>The image displays the 'VACUUM BLACKHEAD REMOVER' product. On the left is the retail box, which is white with a black side panel. The side panel features four icons and their descriptions: a portable design, five suction levels, five interchangeable heads, and a rechargeable battery. The front of the box shows the device and the text 'VACUUM BLACKHEAD REMOVER'. To the right of the box is the device itself, a sleek silver handheld tool with a digital display and control buttons. Above the device, a blue circular graphic illustrates the suction mechanism pulling out blackheads. Below the device, five different interchangeable glass suction heads are shown. In the center, four stainless steel extraction tools are bundled together with a blue ribbon. The device is shown at the bottom with a splash of water, indicating it is waterproof.</p>	<p>Category All Sale Price \$ 11,27 Internal Reference VAR002005VARXL008SE Description</p>
